† Presented at the 16th International Workshop on Advanced Infrared Technology & Applications, 26–28 October 2021; Available online: https://aita2021.sciforum.net/.

In submitting conference proceedings to *Engineering Proceedings*, the volume editors of the proceedings certify to the publisher that all papers published in this volume have been subjected to a peer review administered by the volume editors. Reviews were conducted by expert referees to the professional and scientific standards expected of a proceedings journal. The single-blind review has been performed on the MDPI Sciforum Platform. The number of received submissions is 36, while the number of accepted submissions is 33, with an acceptance rate of 91.67%. The average number of reviews per paper is 2, and the total number of reviewers involved is 21, from 17 different institutions.
