

# The CLARIN experience in H2IOSC Project

Improving user involvement through the use of learning materials developed within the CLARIN network

Dr. Daniele CARPITA • Dr. Roberta OTTAVIANI

## Analysis of CLARIN research and dissemination initiatives

(e.g., Clarin in a nutshell, Clarin Café, roleplay for specific training)

**CLARIN**  
Common Language Resources and  
Technology Infrastructure

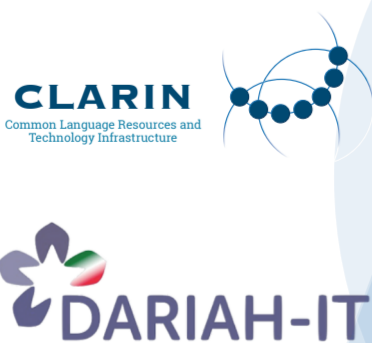

## Adapting pre-existing educational and engagement modules to meet the needs of H2IOSC users

## Development and implementation of an engagement and training plan for H2IOSC

## Involvement of user communities belonging to H2IOSC RIs

## Sustainability of infrastructures

The long-term training and engagement strategy will align with the project's long-term strategies for maintaining knowledge, outputs, and services for at least 10 years
