LEARN PAD
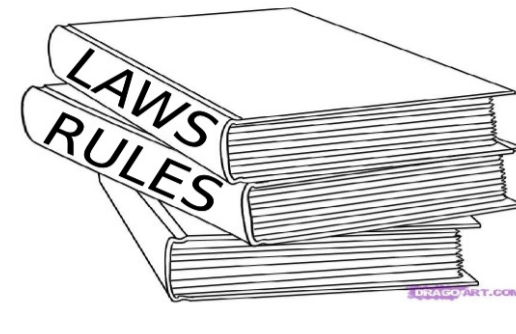

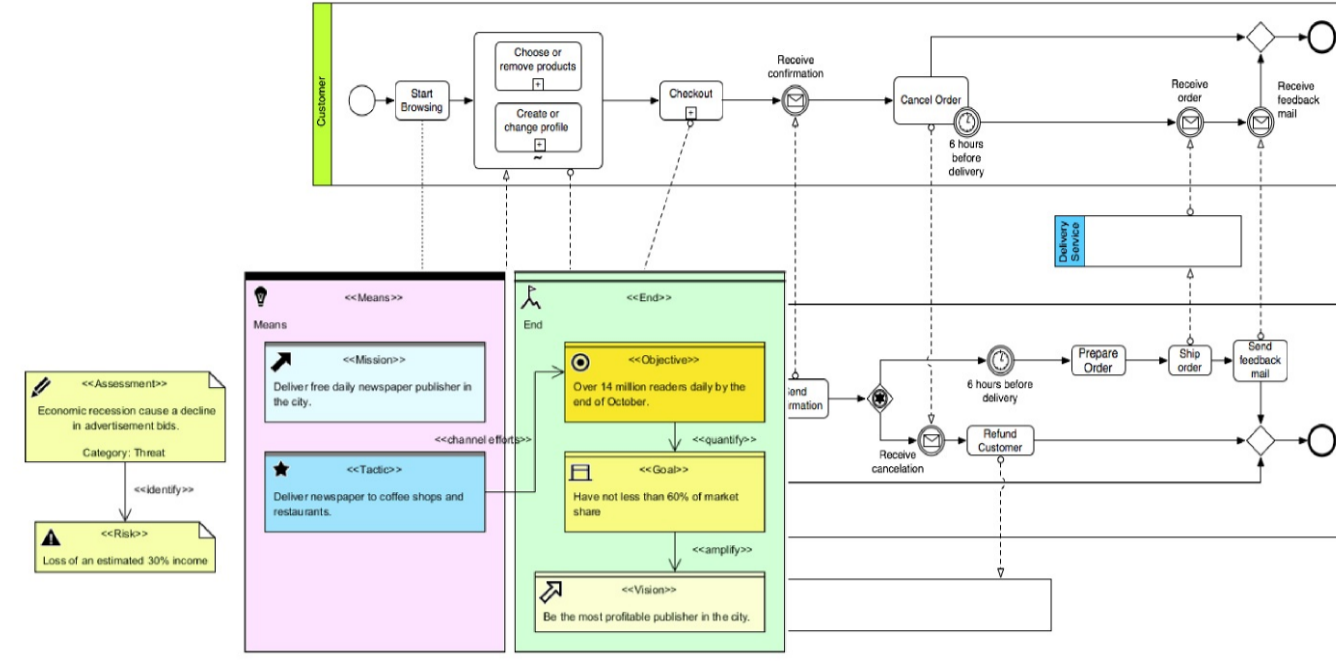

Model-based Social Learning for Public Administrations
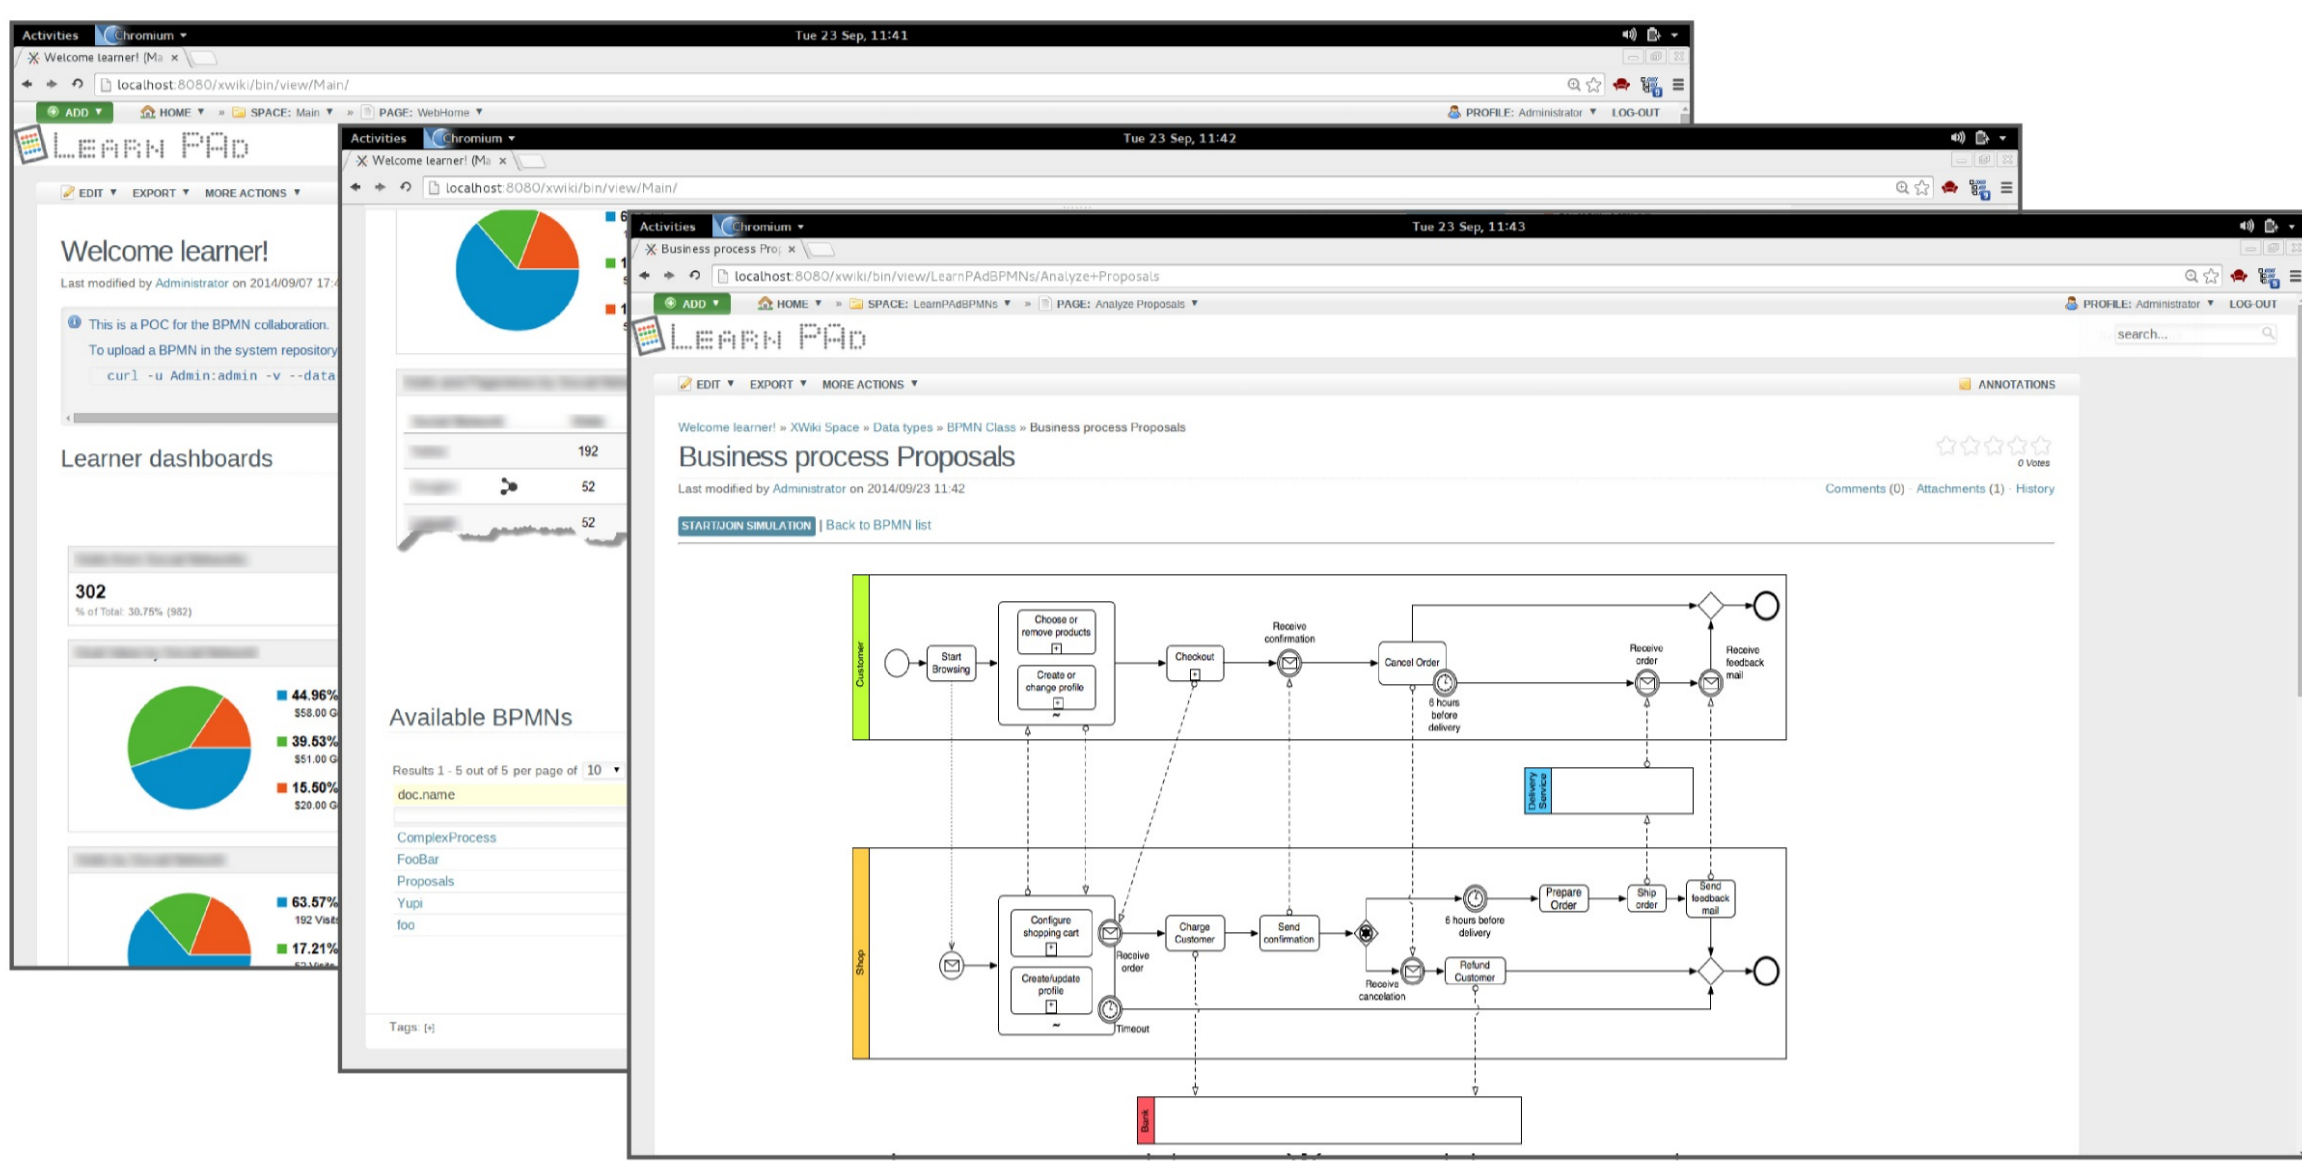

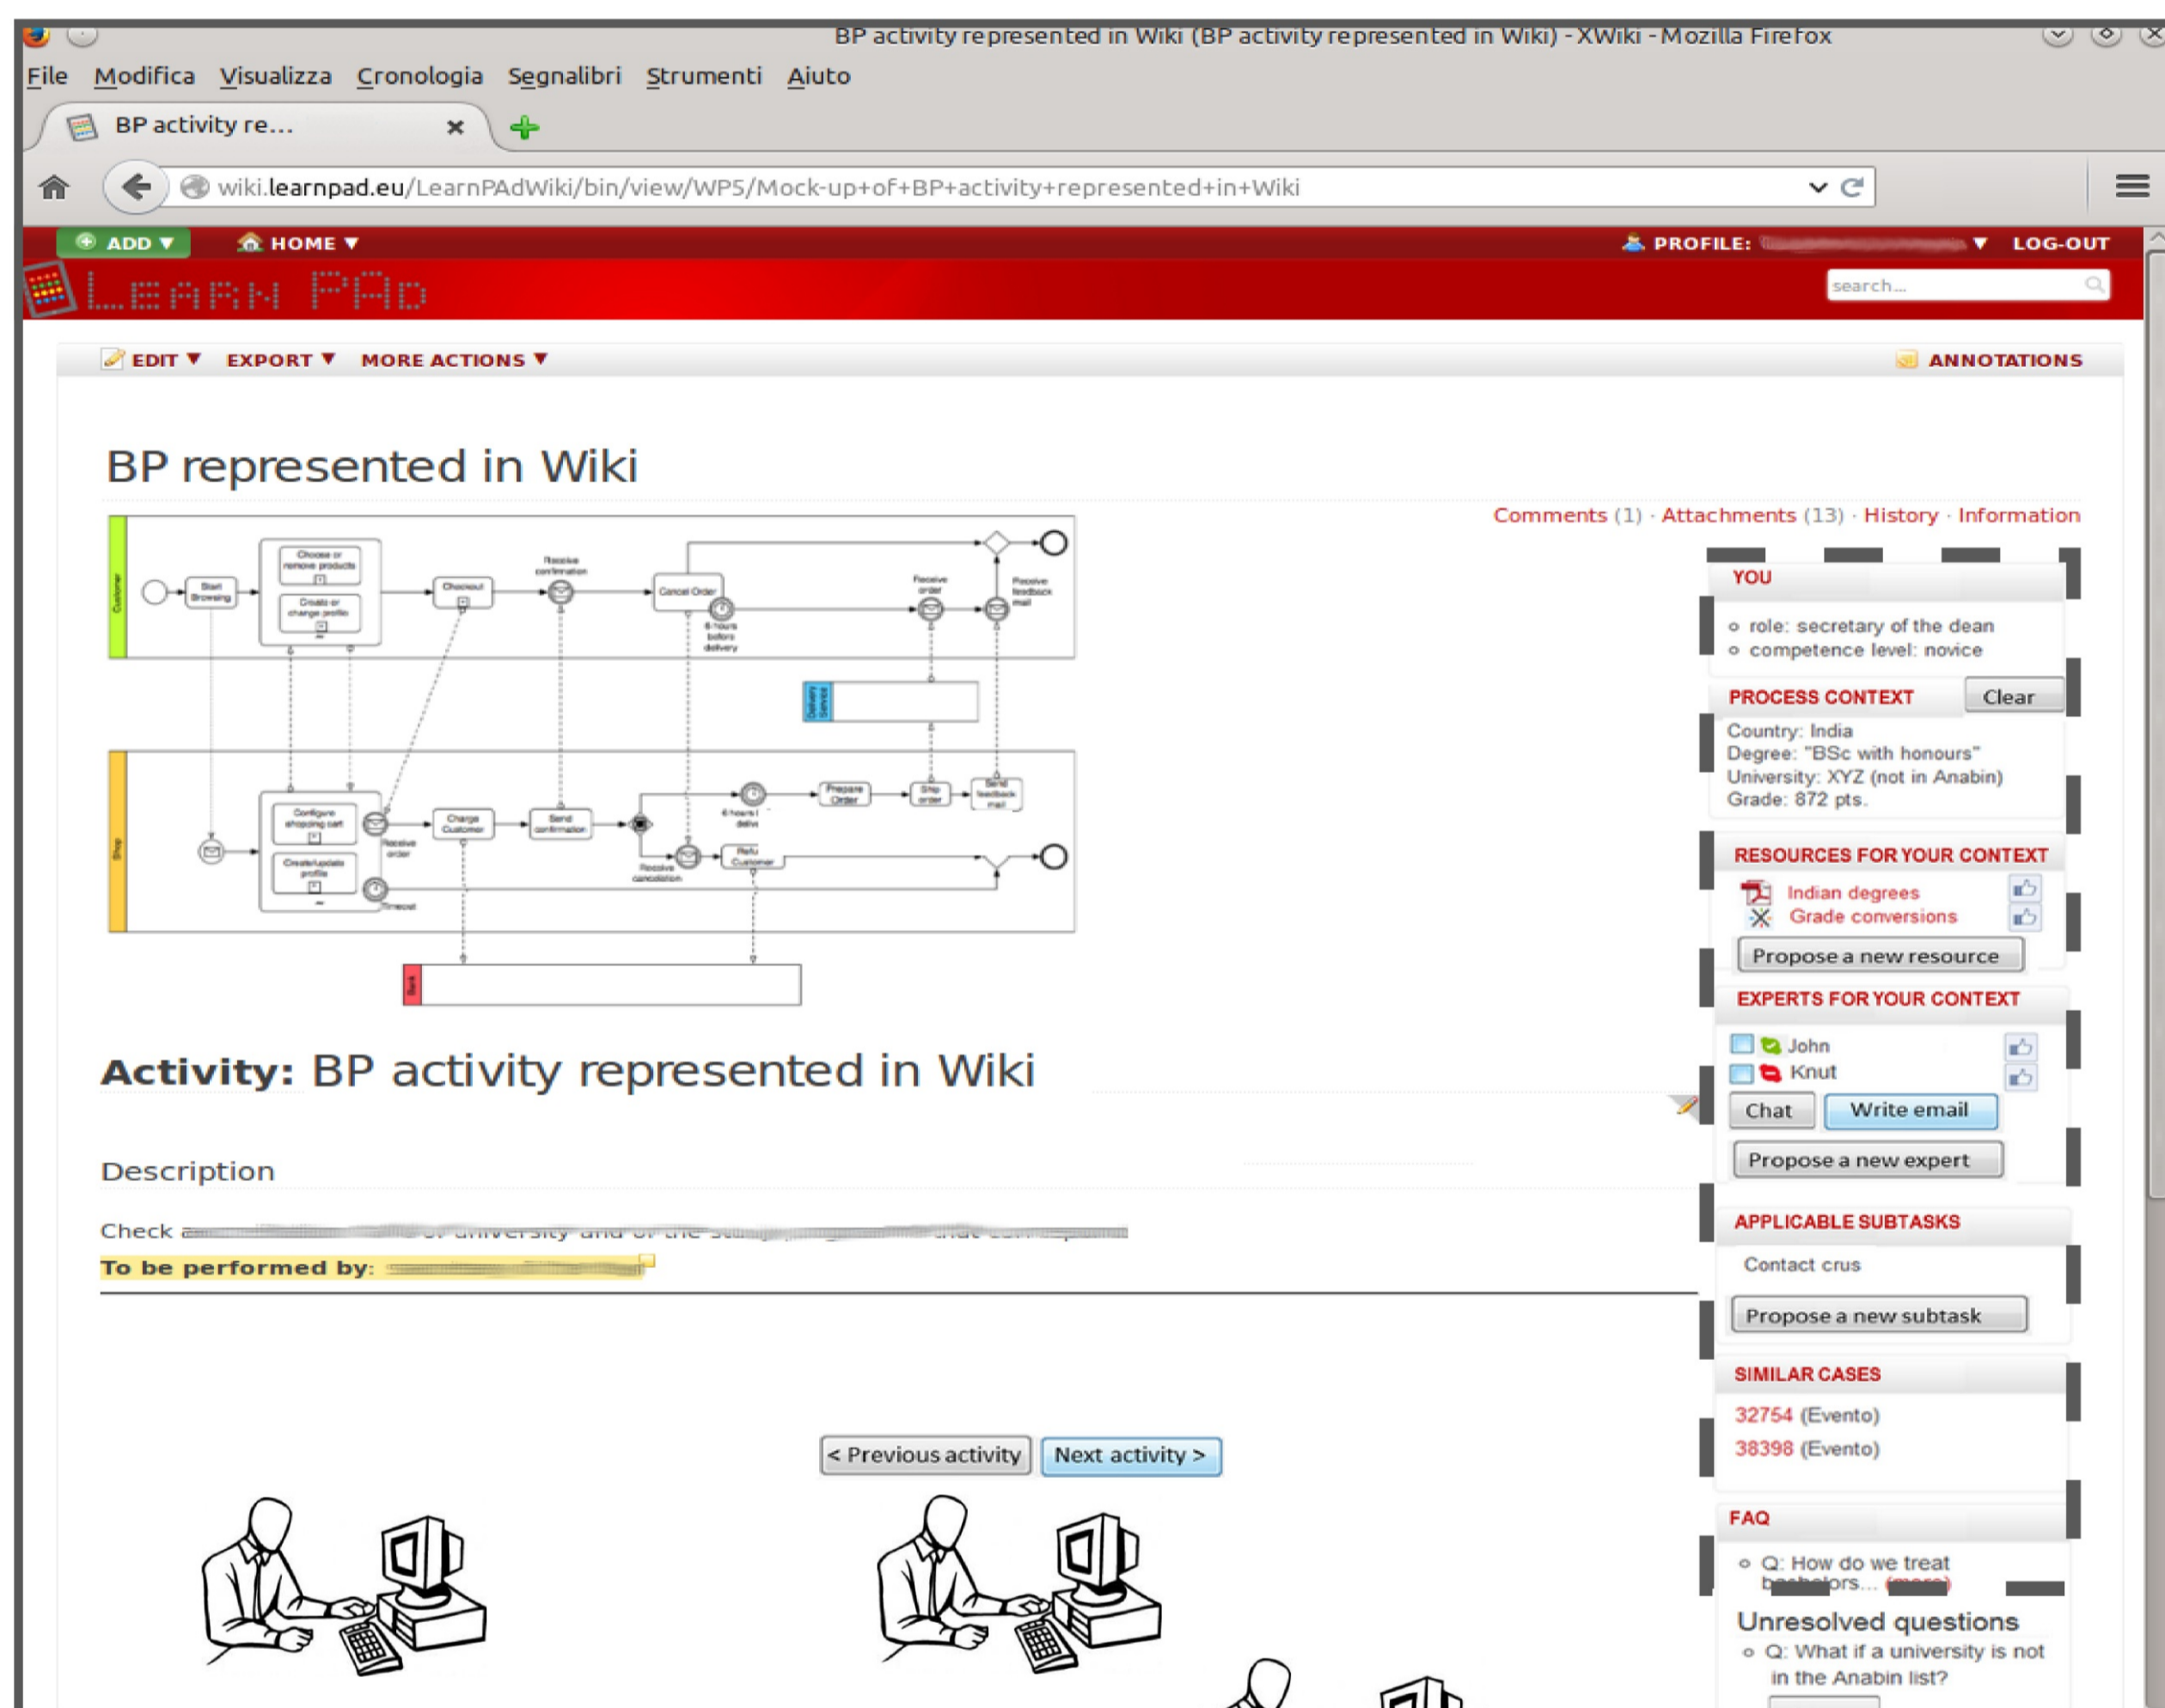

Business process modelling for PA

Model Driven Generation of Contents from BP Documentation

Collaborative Learning and Collaborative Contents Production

Business Processes in place within PA offices:
- need to be kept aligned with laws
- are spread over many offices and PAs
- are strongly interrelated with each other
- include many different paths
- include many exceptional behaviours
- ...

Textual descriptions are not suitable to give a clear idea of a complex flow of activities

LEARN PAD innovative aspects :

- ✓ model based collaborative learning
- ✓ BP driven learning content production/fruition
- ✓ automated verification of local/global process coherence
- ✓ automated evaluation of natural language defined contents
- ✓ automated model-based derivation of self-assessment tasks
- ✓ model based simulation for learning purpose
- ✓ ontology based and OSS inspired KPIs
