The legacy of Mariarosaria Manzo

Michele Manunta, Paolo Berardino¹, Manuela Bonano¹, Francesco Casu², Claudio De Luca¹, Riccardo Lanari¹, Antonio Pepe¹, Susi Pepe¹, Stefano Perna^{1,3}, Pietro Tizzani¹, and Giovanni Zeni¹

¹Institute for Electromagnetic Sensing of the Environment (IREA), Italian National Research Council (CNR), Naples, Italy

²Institute for Remote Sensing of the Environment (IREA), Italian National Research Council (CNR), Milan, Italy

³Department of Engineering, Università degli Studi di Napoli "Parthenope", Naples, Italy

This contribution is aimed at drawing the professional and human profile of our colleague and friend Mariarosaria, based on the memories and materials that we have collected during her 20 years' activity at the Institute for Electromagnetic Sensing of the Environment (IREA) of the National Research Council (CNR), Naples, Italy.

Beside a short overview of her professional contribution at IREA-CNR, we intend to provide also our personal memories picked up from 20 years of co-workship and friendship. Anecdotes, stories and facts will be also provided, with the objective to transmit Mariarosaria's intelligence, competence, passion, courage, poise, firmness, gentleness, determination and sweetness, all enclosed in her wonderful smile and amazing blue eyes.

All this represents her legacy that we want to pass on.
