These proceedings contain the papers presented at the 10th International Workshop on Automated Specification and Verification of Web Systems (WWV 2014), held on 18 July 2014 in Vienna, Austria. WWV 2014 was a satellite workshop of the Federated Logic Conference (FLoC 2014), associated to the 7th International Joint Conference on Automated Reasoning (IJCAR 2014), as part of the Vienna Summer of Logic (VSL 2014), the largest event in the history of logic with over 2500 participants.

Nowadays many companies and institutions have diverted their Web sites into interactive, completely automated, Web-based applications for areas such as e-business, e-learning, e-government, and e-health. The increased complexity and the explosive growth of Web systems has made their design and implementation a challenging task. Systematic, formal approaches to their specification and verification allow to address the problems of this specific domain by means of effective automated techniques and tools.

The international workshop on Automated Specification and Verification of Web Systems is a yearly workshop that aims at providing an interdisciplinary forum to facilitate the cross-fertilization and the advancement of hybrid methods that exploit concepts and tools drawn from rule-based programming, formal methods, software engineering and Web-oriented research. The previous nine WWV workshops were held in Florence (2013), Stockholm (2012), Reykjavik (2011), Vienna (2010), Hagenberg (2009), Siena (2008), Venice (2007), Cyprus (2006), and Valencia (2005).

This year, four papers were submitted to the workshop, and the Program Committee decided to accept two, based on their scientific quality, originality, and relevance to the workshop. Each paper was reviewed by at least three Program Committee members. In addition to presentations of these regular papers, this year's workshop included invited talks by Steve Ross-Talbot (Cognizant Technology Solutions, UK) and Josep Silva (Universidad Politécnica de Valencia, Spain). At VSL 2014, WWV 2014 was scheduled as a joint session with the 2nd International Workshop on Verification and Program Transformation (VPT 2014), associated to the 26th International Conference on Computer Aided Verification (CAV 2014).

We want to thank the Program Committee members for their swift yet careful reviewing. We are grateful to the VSL organizers, the FLoC 2014 Workshop Chair Stefan Szeider, and the IJCAR 2014 Workshop Chair Matthias Horbach for accepting WWV as a satellite workshop at VSL 2014. We thank Alexei Lisitsa and Andrei Nemytykh for smoothly organizing a joint WWV+VPT session. We would also like to take this opportunity to thank Andrei Voronkov for his excellent EasyChair system that automates many of the tasks involved in organizing and chairing a conference. Finally, we thank EPTCS and its editor-in-chief, Rob van Glabbeek, for publishing the proceedings of WWV 2014.

**Program Chairs**

Maurice ter Beek (ISTI–CNR, Pisa, Italy)

António Ravara (Universidade Nova de Lisboa, Portugal)

**Program Committee**

Maria Alpuente (Technical University of Valencia, Spain)

Maurice ter Beek (ISTI–CNR, Pisa, Italy)

David Benavides (University of Seville, Spain)

Mario Bravetti (University of Bologna, Italy)

Sylvain Hallé (Université du Québec à Chicoutimi, Canada)

Raymond Hu (Imperial College London, United Kingdom)

Atsushi Igarashi (Kyoto University, Japan)

Laura Kovács (Vienna University of Technology, Austria)

Ana Almeida Matos (Instituto Superior Tecnico de Lisboa, Portugal)

Anders Møller (Aarhus University, Denmark)

António Ravara (Universidade Nova de Lisboa, Portugal)

Gwen Salaün (Inria Rhône-Alpes, Grenoble, France)

Francesco Tiezzi (IMT Institute for Advanced Studies Lucca, Italy)

Emilio Tuosto (University of Leicester, United Kingdom)

Erik de Vink (Eindhoven University of Technology, The Netherlands)

**Steering Committee**

Maria Alpuente (Technical University of Valencia, Spain)

Demis Ballis (University of Udine, Italy)

Santiago Escobar (Technical University of Valencia, Spain)

Moreno Falaschi (University of Siena, Italy)

Laura Kovács (Vienna University of Technology, Austria)

Temur Kutsia (Johannes Kepler University Linz, Austria)

Massimo Marchiori (University of Padova, Italy)

Rosario Pugliese (University of Florence, Italy)

António Ravara (Universidade Nova de Lisboa, Portugal)

Josep Silva (Technical University of Valencia, Spain)

Francesco Tiezzi (IMT Institute for Advanced Studies Lucca, Italy)
