Vol 62, No 3 (2019)

Guest Editors: Lucia Alberti, Riccardo Mario Azzara, Paolo Clemente

Table of Contents

Lessons from the past: the evolution of seismic protection techniques in the history of building

Preface Special Issue: Lessons from the past: the evolution of seismic protection techniques in the history of buildings Lucia Alberti, Riccardo M. Azzara, Paolo Clemente	PDF SE345
Lessons from the past: some Greek Bronze Age responses to natural disasters and their modern counterparts Lucia Alberti	PDF SE333
Messina: story of a town "expert" on earthquakes Via Risorgimento, a palimpsest of "anti-seismic" building systems Ornella Fiandaca, Raffaella Lione	PDF SE334
A multidisciplinary approach to document and analyze seismic protection techniques in Mugello from the Middle Ages to Early Modern Time Andrea Arrighetti, Giovanni Minutoli	PDF SE335
The evolution of Earthquake-Resistant Timber Constructions in Anatolia Based on Archaeological data Hulya Diskaya	PDF SE336
Historical Building Codes issued after the strong Italian earthquakes of Norcia (1859) and Ischia (1883) Alessandra Marotta, Domenico Liberatore, Luigi Sorrentino	PDF SE337
Seismic assessment of the medieval Armenian church in Famagusta, Cyprus Andrés Burgos Braga, Paulo B. Lourenco, Nuno Mendes	PDF SE338
Combined use of 3D metric surveys and non-invasive geophysical surveys at the Stylite Tower (Umm ar-Rasas, Jordan). Marilena Cozzolino, Roberto Gabrielli, Pasquale Galata', Vincenzo Gentile, Giorgia Greco, Eleonora Scopinaro	PDF SE339
Stability and seismic vulnerability of the Stylite Tower at Umm Ar-Rasas Paolo Clemente, Giuseppe Delmonaco, Lucamaria Puzzilli, Fernando Saitta	PDF SE340
Characterization of historical Masonry Mortar from sites damaged during the Central Italy 2016-2017 Seismic Sequence: the case study of Arquata del Tronto Daniele Mirabile Gattia, Graziella Roselli, Omar AlShawa, Paolo Cinaglia, Giuseppe Di Girolami, Cristina Francola, Franca Persia, Enrica Petrucci, Roberto Piloni, Fabrizio Scognamiglio, Luigi Sorrentino, Silvia Zamponi, Domenico Liberatore	PDF SE341
Experimental and numerical investigations on the seismic behaviour of the San Frediano bell tower in Lucca Riccardo Mario Azzara, Maria Girardi, Cristina Padovani, Daniele Pellegrini	PDF SE342
The contribution of indirect topographic surveys (photogrammetry and laser scanner) and GPR investigations in the study of the vulnerability of the Abbey of Santa Maria a Mare, Tremiti Islands (Italy) Marilena Cozzolino, Andrea Di Meo, Vincenzo Gentile	PDF SE343
Nanotechnologies for concrete and composed structures for seismic safety Agostino Catalano	PDF SE344
